Partners Who Think Differently

At Fenns, we believe in more than just delivering great furniture, we believe in delivering it responsibly.

That's why we're proud to partner with Vepa, one of Europe's most progressive furniture manufacturers, leading the way in **circular design**, **low-impact materials**, and **closed-loop production**.

Together, we bring customers the best of both worlds: exceptional furniture and measurable environmental benefits.

The Hemp Fine Chair

Hemp Fine Chair

Vepa's Hemp Fine chair is a bold move towards sustainable seating. The shell is made from a blend of industrial hemp and organic resin, and this special edition, incorporates jute coffee sacks from Dutch coffee roaster Peeze - giving waste a second life with a unique story and design.

The chair is:

- ✓ 100% recyclable at end of life.
- ✓ Strong, lightweight, and durable.
- ✓ Manufactured in-house at Vepa using renewable energy.

The aesthetic is modern and versatile, with clean lines and the original jute sack print adding a distinctive touch. It's a perfect example of circular collaboration, transforming residual materials into sustainable, stylish furniture.

Shared Values. Real Impact.

From biomass-powered manufacturing to fish-friendly adhesives, Vepa's approach is a blueprint for how the furniture industry can evolve. At Fenns, we're proud to champion that vision - offering customers thoughtfully designed products that align with sustainability targets and support better procurement choices.

If you're looking to future-proof your space, we're here to help

**100%
PLANT-BASED
MATERIALS!**

Hemp Acoustic Panels

An evolution of Vepa's Hemp series, these wall panels combine natural hemp fibres and bio-resin to deliver sustainable acoustic performance with visual appeal.

These panels are:

- ✓ 100% plant-based and organic.
- ✓ Produced in-house in Emmen.
- ✓ Designed with pressed and unpressed sections for structure and sound absorption.

Inspired by Earth, Water, Air, and Fire, each design brings flowing, natural lines to any space - enhancing acoustics while creating a warm, inviting atmosphere.

Hemp Acoustic Panels

Ready to rethink workplace furniture?
